

FIELD TESTING AND RANGE FINDING MADE EASY!

OSCAR is perfect for large high-stakes summative assessments, but it can also be used for projects of any size!

"OSCAR is the perfect tool to make field-testing and range-finding affordable, reliable and efficient"

Daisy Vickers
Scoring Expert

SCORING PROJECTS CAN BE SETUP IN OSCAR AND READY TO SCORE WITHIN MINUTES!

Step 1 - Create your Rubric

- Holistic or Multi-trait Rubrics
- Trait-level Condition Codes
- Collect Rater Input & Feedback

Step 2 - Configure your Item

- Optional Training, Practice and Qualification
- Flexible Routing Rules with Weighted Trait Scoring
- Integrated Rater Resource Material

Step 3 - Load student responses

- Image, Text and PDF Response formats
- Audio and Video Response formats
- TEI Responses (API integration available)

Step 4 - Assign your scorers

- Scoring Teams
- Assign Raters to specific items
- Distributed or Onsite scoring

Step 5 - Monitor quality and progress

- Monitor IRR, Frequency Distribution, Validity, and Rate
- Real-time calibration to correct scorer drift
- Monitor Item & Project Progress and Rate
